

RE: Sinclair Broadcasting

It is one thing to make financial contributions to a campaign, but for a media corporation to force their television stations to air an anti-anybody program is outrageous, irresponsible, and interferes with fair elections. I do not understand why this practice is not illegal. It is not unlike tampering with ballots and voting machines, a federal crime.

The airwaves belong to the public, and the public interest must always be served at all cost. The Sinclair Corporation is putting their corporate interest above the public interest. Where is the integrity of the media? I do NOT support expanding the media ownership laws, and the actions of the Sinclair Corporation are why. When talk of expanding ownership rights began, I anticipated a scenario similar to this.

It is the job of the FCC to stop this. You are supposed to represent the public, and I am asking you to do your duty for the sake of an entire nation, a cause much greater than one campaign.

Sincerely,

Melinda Page1
